Spoken Tutorial Project, IIT Bombay

Offering Free Software training – In association with Nalanda Open University

Nalanda Open University is happy to announce Free software training, in collaboration Spoken Tutorial Project, IIT Bombay.

Trainings are being given on many useful software like Linux, Libre Office (Open Source alternative of MS Office), C, C++, Java, Python, PHP & MySQL, Blender (Open Source alternative for 3D Max, Maya), GIMP (open Source alternative for Photoshop) etc. **Students can learn on their own without the need of any expert trainers at the centres.**

On completion of the training students / participants will receive certificates from Spoken Tutorial Project, IIT Bombay. The team at IIT Bombay is available on phone and mail to answer queries.

Students can learn these software by accessing to the direct link, this link will take them to the relevant software tutorials.
