FOSS lab Facilities:

There are 30 dedicated systems exclusively for the training of FOSS in our computer Science lab now. All the FOSS specified in the spoken-tutorial program are loaded into those dedicated machines. Now, any teaching, non-teaching faculty, students or Admin staff can access these systems and learn FOSS by themselves. The systems are also loaded with audio-video files of all FOSS, and headsets are provided for each system for the convenience of the learner. A learner can access these systems at any time in the college working hours, open audio-video files and the corresponding software and learn any FOSS software by the side-by-side method. Students and faculty can learn new softwares and if interested, register on spoken-tutorial website and get the certificates after taking exams.

Softwares loaded in our FOSS lab:

1.C
2.QCAD
3.JAVA
4.PYTHON
6.LATEX
6.PHP/MYSQL
7.OPEN FOAM

Our Future Plans as a FOSS Resource Centre:

First of all, a workshop on spoken-tutorial program and FOSS will be conducted for all the college admin staff and non-teaching staff. Workshop on Spoken-tutorial program was already conducted for the teaching staff of all departments.
We are planning to conduct FOSS awareness programs in the nearby schools and colleges.
We are aware that, as a FOSS Resource Centre, It becomes our duty to popularize the FOSS and spoken-tutorial program in the educational-Institutes in and around our college. These awareness programs will be implemented in the coming months. Promotion of FOSS through our website will be done as well. We are planning to dedicate a page in our website to spoken-tutorial FOSS program and lab activities. The inauguration ceremony will be highlighted in our website as well.
