Dear Prof. Rajeev Jain,

Glad we spoke today on Remote Learning Initiative through IIT Bombay Spoken Tutorials. As discussed, college is closed and everything is postponed as per the notice. So, in this connection, to engage students you will be sharing Spoken Tutorial Course Link with students (that can be department wise or common course for all), so that students will study remotely from Spoken Tutorials & will be appearing for the exam when college reopens and classes start. Marks obtained during exam will be taken as equivalent to mark attendance for said period & internal marks whichever will be appropriate.

In this regard, you will publish that and issue a notice to all students to access the courses and do the learning. Please find the attached brochure for your reference. **_ST Course Tutorial download link_** can also be shared, students can download the course tutorials and learn.

Looking forward to assist in this crucial period of closure of Institutions.

Thanks and Regards,
Akanksha Saini
