<https://spoken-tutorial.org/cdcontent/>

14:30 ✓

This is the link  for downloading the courses (as we all use to do in our labs, and ask the students to see the videos and study).

I request the respected Deans and HODs of all programs to please ask your spoken coordinators of all classes to circulate this message amongst the students.

You must have already registered your students in some courses. You must ask your students to download the course videos by clicking on the above link and study the content regularly.

With regards
Yasar Masud
Spoken Tutorial & NPTEL
