ABOUT THE INSTITUTE:

Sinhgad Institute of Technology (SIT), Lonavala since its establishment in 2004 being premier Institute is committed to fulfill aspirations for excellence in technical education, produce competent engineers and good human being. The institute has 175 acres artistically landscaped, lush green campus, conducive to learning.

We strive to develop SIT as a benchmark in engineering education. It is an ultimate destination for students to groom their overall personality along with academic excellence. These are achieved through Value Addition Programs (VAPs), Student Training Programs (STP), Lab Innovations, Project Based Learning, Cultural activities, Technical events, etc.,

Training and Placement Cell with the facility of Corporate Training Centre is dedicated to nurture our students to face global challenges. Sinhgad Sports academy with facilities and coaches of national standards is established to explore hidden sports talents amongst students.

Welcome to such live, vibrant campus and best wishes for your glorious journey towards bright and successful future.

ABOUT THE WORKSHOP:

The workshop will lead you from beginning level to advance in Moodle Learning Management System

OBJECTIVES OF COURSE:

Moodle is a Learning Management System (LMS) It is free/Libre and open source Software. It helps teachers and educators to create an online courses for adaptive and customized learning It is used by many small and large educational institutions to create and deliver courses online to their students

ELIGIBILITY:

1. Faculties from any University, Faculty of engineering, management institutions at Degree /Diploma levels, of are eligible to participate. All the Participants are required to fill up online registration form before the deadlines.

2. The Spoken Tutorial Project team conducts workshop on Moodle is a Learning Management System using spoken tutorials and gives certificate to those who pass the online test.

3. Registration is FREE for all participants.

BENEFITS OF MOODLE:

- Moodle works on Linux, Windows and Mac operating systems.
- Moodle is easy to navigate on all devices.
- The security controls keep our data safe and protected.
- It has powerful features that empower both teachers and learners.
- The Moodle user community and forum very active and helpful.
- Free plugins available in Moodle make it feature-rich.
- It has detailed reports on activity and participation at course and site level.
- It helps in collaborative as well as personalized learning. It has basic features such as file upload, assignments, quizzes, notifications, etc.
- Advanced features such as forums, wikis, etc. can be used by learners.
