TULAS FOSS CLUB

Spoken Tutorial Project-Open Source Software Tutorials-(**IIT Bombay Spoken Tutorial Project-FOSS**)

Tulas FOSS Club – Super Resource Center

Tulas Institute is the "Super Resource Center" for the Spoken Tutorial- promoted by IIT Bombay spoken Tutorial in association with Ministry of Human Resource Development (MHRD)as part of its mission for Education– Information & communications Technology(ICT).

In the Year of 2014 ,We are in the process of conducting FOSS(Free Open source Software) courses from IIT Mumbai spoken Tutorial.We are starting the courses Linux-Ubuntu ,C,C++ ,Java, Netbeans & Python ,Scilab, PHP, Mysql ,Calc,Python,LaTex,Oscad etc.

We have planned to start a TULAS-FOSS Club in our institution .The acronym of FOSS is free open source Software .There are two terms free and open source in FOSS.As we need freedom everywhere, we need software freedom too. Open mainly points to open source code of the program available for others. So a free source code which is available for analysis.
"Free software" is a matter of liberty ,not price. Hence , FOSS provide us the freedom to

- ✓ Execute the software
- ✓ Study how a program works
- ✓ Redistribute copies
- ✓ Modify/improvise
- ✓ So we may get the software at no cost but as per the license we can run, copy, distribute, study, change and improve the software .
