Rajiv Gandhi Proudhyogiki Vishwvidyalaya

(State Technological University of Madhya Pradesh)
Airport Road, Bhopal-462033, MP, India.

September 12, 2014

To,

The Director/Principal

All Affiliated Colleges, RGPV, Bhopal

Sub :- Nomination of one faculty member as a coordinator for Spoken Tutorial Project, IIT Bombay.
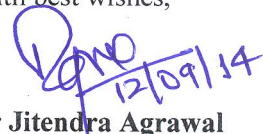

Sir,

Rajiv Gandhi Prodyogiki Vishwavidyalaya, Bhopal in partnership with IIT Bombay is organising trainings/workshops under Spoken Tutorial Project of MHRD, Govt. of India. Rajiv Gandhi Prodyogiki Vishwavidyalaya, wants to encourage students/faculties to actively participate in the Open Source movement. In this regard, one awareness programme has already been conducted on 3rd September, 2014 at the University in which Miss. Priyanka Shroff, Training co-ordinator, Spoken Tutorial, IIT Bombay, had delivered a one hour lecture on Spoken Tutorial Project.

In order to make success of this effort, you are requested to nominate one or two faculty members as a coordinator to coordinate all the upcoming events under Spoken Tutorial Project from your institute. It is expected this will strengthen the open source movement in the Colleges so that students and faculty members not only start using open source technologies but would also start contributing new technologies and improving existing technologies. Participation in such work makes one a part of an national movement and sharpens the technical competence of the participants.

Expecting your kind co-operation & support.

With best wishes,

Dr Jitendra Agrawal
Chief Coordinator
