Sub: Spoken Tutorial Workshops at Jaypee University of Information Technology

Dear Ms. Sharda

This is to inform you that our university is offering various spoken tutorial workshops to all undergraduate courses include B.Tech (CSE, ICT, ECE, Civil), B.Pharm, BioInformatics and all post graduate includes M. Tech students of CSE, ECE, and M. Pharm. Students from first year to final year of these streams are very much interested and actively participating in spoken tutorial workshops and tests. Research scholars and Ph.D. students specially advised to attend the workshops on SciLab and LaTeX. Course-wise schedule is attached with letter. FOSS workshop suits well in our course curricula like PHP-MYSQL workshop suits well in even semester for 3rd year with Web technology Lab and Java workshop suits well in even semester with Java Lab.

Our team is efficiently working with spoken tutorial project and In this semester we have completed 17 workshops and 8 assignments tests. We also collect the feedback from the students to know their interest and it is found that these workshops are very useful for the students and now they are demanding for some advance level of courses and tests in Java and C++. We have also formed a group of students (UG & PG) and research scholars at Google link of which can be found at <https://groups.google.com/forum/#!forum/spoken-tutorials-juit>

We hope that in future some more advance level of modules will be included to these workshops.

Thanks & regards

Prof. Dr. S.P.Ghrera,

FBCS(Fellow British Computer Society), SMIEEE

Ph. D(CSE), MBA(HR & IR), ME(Hons) Computer Science, B Sc Engineering(Hons)

Head of Department & Professor

Department of Computer Science & Engineering and Information Technology
