Respected Madam,

We are providing **degree courses and training programs** to the students and corporate persons in the area of (Information and Technology, Management) from last 15 years. We are enriched with the required resources and human power. Apart from university degree courses we are conducting different short term courses for students, professionals , house wife's and retired senior citizens according to their need. Some of our key features are:

- Highly qualified faculty members having PhD, M.Tech degree.
- Focus on conceptual development with practical implementation.
- Case Study base problem solving mechanism.
- Emphasis is towards training and project development.
- Certificate is authorized by Government of Uttarakhand.
- Best training and Development Institute since 1998.
- Special classes for technically weak students.
- Extended time for slow batches.

We are thankful, for the association with spoken tutorial and looking forward towards the **resource center** to explore the literacy mission in this region. It will give us confidence and strength of working in spreading the computer literacy and Open Source concept in this region. We will use our local networks and conduct awareness camps in the schools and nearby colleges. As a resource center we can serve as:

- Conducting seminars in schools and colleges to join training programs.
- Counseling sessions are conducted to guide the students for appropriate training course.
- After training completion student will get the chance for application development (if interested).
- We have our domains to upload the developed applications at the server, this will gives them real scenario of working.

S.K.Infotech will be highly obliged if we get the resource center status as well.

Dr. Vikram Kapoor
(Joint Director)
