

Workshop  
on  
**Technology Enabled Education**  
26<sup>th</sup> July 2016  
Uttarakhand Science Education Research Centre

**WHAT IS SPOKEN TUTORIAL**

- Spoken tutorial is an audio-video tool that teaches Open Source Software.
- Through active learning method, students learn a software in short, simple steps
- Self-learning, On campus, In lab hours, Off-line learning... No expert needed

**Advantages:**

- In programming, the greatest thrill is writing your own program, compiling and running it.
- It is well known that listening is always better than reading and that is why this methodology works.
- It helps that in addition to reading theory, you see the concept in a small program, practice it and understand it in a very simple way.

*Created by experts. Over 12 lakh students have been trained in colleges, polytechnics and ITIs in the past 5 years! Why waste 1000s of Rs. Learning outside??*
