

Tutorial Name: Drawing Basic Objects

Assignment 1

1. In your file **MyPractice**, draw a line.
2. Select **Line** and open the **Line** dialog box.
3. Under the **Line Properties** field, change **style**, **color**, **width** and **transparency** for **lines**.
4. Under the **Arrow Styles** field, change the **arrow style** as per your preference.

Assignment 2

1. Open **MyPractice.odg** file.
2. Add a page.
3. Draw these two **objects**.

4. Move them using the **arrow keys**.
5. Select any object you have drawn and delete it.
6. Use the Rulers to measure the size of the **object**.
7. Then use the **Align toolbar** and **align** the **objects** to the centre of the page.
