

Tutorial Name: "Number Line: Operations"

### Assignment 1

1. See the following table.

<b>Sr. No.</b>	<b>Transactions</b>
1	Add a cycle as an asset of \$300
2	Add a TV as an asset of \$200
3	Add debt of \$400 taken for monthly expenses
4	Add salary as an asset of \$100
5	Add debt of \$100 taken as education loan

2. Perform these transactions using the Net Worth screen.

3. It will calculate the net worth of a person.

### Assignment 2

1. Use the Operations screen to calculate the net worth in different scenarios.

2. Open the Generic screen and choose the two numerical expressions option.

3. Then perform the steps shown in this table. Compare the different operations on integers.

<b>Sr. No.</b>	<b>Person 1</b>	<b>Person 2</b>
1	Set initial value to 1	Set initial value to -3
2	Add value equal to 2	Remove value equal to 1
3	Add value equal to 6	Add value equal to 9
