

Tutorial Name: Color Vision

### Assignment 1

1. Choose white light to come from the flashlight and observe the transmission of light from the filter.

### Assignment 2

1. Adjust the red, blue and green sliders to get these 6 colours.

2. Which RGB combination would you pick to design these schemes?
3. Look for an image of the colour wheel on the Internet.
4. Pick colour combinations for the following schemes:  
complementary, analogous, triadic, rectangle.
