About the Spoken Tutorial project

- Self explanatory - uses simple language
- Audio-video - uses multisensory approach
- Small duration - has better retention
- Learner-centered - learn at your own pace
- Learning by doing - learn and practice
- Simultaneous empowerment - learn a new FLOSS

Target Audience

- People working in document preparation
- Software Developers for coding environment

Workshop

The Spoken Tutorial Project Team conducts workshops on gedit and other FLOSS using spoken tutorials and gives certificates to those who pass an online test.
