Conditional Statements – Assignments

Assignment-1

1. Given a number, num as input.
2. Write an if else block to print num, if it is divisible by 10, else print 10 \* num.

Assignment-2

1. Given a number, n as input.
2. Write an ternary operator to print n, if it is divisible by 10, else print 10 \* n.

Assignment-3

1. Given a variable t.  
Print Good Morning if it is less than 12, otherwise print Hello.  
Use if else statement.

2. Convert the below if else code into ternary conditional statement.

```
x = 20
if x > 10:
    print (x * 100)
else:
    print (x)
```
