Assignment-1

Pressure, Volume and Temperatures are held by the equation PV = nRT where nR is a constant.
Assume nR =0.01 Joules/Kelvin and T = 200K. V can be in the range from 21cc to 100cc.
Draw two different plots as subplots:
1. Pressure v/s Volume plot and
2. Pressure v/s Temperature plot.

Assignment-2

1. Which of the following is correct?
1. subplot (numRows, numCols, plotNum)
2. subplot (numRows, numCols)
3. subplot (numCols, numRows)
