How to use TeX / LaTeX to type equations in Equation Editor:

https://docs.moodle.org/33/en/Using_TeX_Notation

Accessible Websites:

Accessible websites are the ones which can be easily used by people with disabilities. There are conformation standards to be followed by any site to be accessible.

Clicking on **Accessibility checker** in Moodle default text editor will let us know if there are any accessibility issues.

Screen reader helper: This helps us understand how a visually impaired person reads the screen. Visually impaired users cannot see images. So these image descriptions help them understand the context.

It is a good practice to use appropriate image descriptions and good anchor texts for links.
